Philippines. [] of ONE has attended four of the five meetings held since early October when he was invited to join. The meetings were held on 10 and 23 October, on 7 and 21 November, and on 17 December. The sixth and final meeting is to be scheduled for late January or early February 1958.

25X1

[] finds the meetings generally stimulating and informative. The personal and detailed knowledge of many of the participants on Philippine personalities, business and political practices, and financial problems provides especially useful and interesting information.

25X1

The group generally is seriously disturbed by the economic situation in the Philippines. The most forcefully expressed view held by nearly all the group members concerns ICA, which they believe has been grossly inept and inadequate throughout; and there are repeated references to the dire need for effective, high-level economic and financial advice to the Philippine government.

Soviet Policy Toward Underdeveloped Countries. I will participate in this study group when activated.
